Letters from the President and Mr. W. S. Baker were read in support of the request.

On motion, the Curators were authorized to restore to a place in the fireproof building of the Society its manuscript of the Declaration of Independence in the autograph of Thomas Jefferson.

Dr. Hays moved as an amendment "that it be kept in a fireproof safe."

The amendment, being put to a vote, was not agreed to, and the original motion was adopted by the Society.

On motion, it was resolved that Mr. Ford be permitted to have access to the document in question in the presence of one of the Curators of the Society.

The Committee appointed to examine Prof. Cope's paper, offered at the last meeting for the Transactions, reported that he desired to withdraw the same and recommended that the request be granted. On motion, the Society permitted the paper to be withdrawn.

The stated business of the meeting was then taken up, and pending nominations Nos. 1230 and 1231 were read, spoken to and balloted for.

The following minute was read from the Library Committee:

Stated Meeting, October 10, 1891.

The Chairman was authorized to report to the Society the suggestion that the fireproof for the valuable books and papers heretofore ordered by a vote of the Society, which order was not executed because of the absence of any sufficient foundation for the fireproof, be now carried into effect, as the walls of the building appear to be entirely sufficient for that purpose.

On motion, the Library Committee respectfully requested the Curators to indicate to the Committee what cases they will need for the purposes mentioned by Dr. Morris to the Committee for the display of antiquities, etc.
Dr. Morris, on behalf of the Curators, stated the reasons why at present the Curators could not designate exactly how much was wanted; that much of the collections of the Society was as yet unpacked and temporarily inaccessible; that until the Curators knew how much space would be needed they could not designate it.

Mr. McKean moved that the Committee on Hall be requested to carry into effect the order of the Society, made several years ago, to procure a fireproof safe for the safe custody of the valuable books and papers of the Society, or to inform the Society, if they find such to be the fact, that the walls of the Society's building are not yet deemed strong enough to support such a safe.

Mr. DuBois inquired as to whether any limit had been placed as to the size and price of such a safe.

The Secretaries replied that in the original motion there was no limitation.

Dr. Cope suggested that a new base might have to be built to support so great a weight.

Dr. Greene suggested that several small safes might better serve the purpose than one large one.

Prof. Barker suggested that a vault could be erected in the basement of the Society's building as a receptacle for its documents.

On motion of Mr. McKean, the motion was referred to the Hall Committee.

All other business of the meeting having been disposed of, the Tellers reported the result of the voting for candidates to the Presiding Member, who declared that

2197. Prof. George Forbes, F.R.S., London,
2198. Mr. Joseph G. Rosengarten, Philadelphia, had been duly elected members of the Society.

And the Society was adjourned by the President.
